WORLD WILL GL◊W

Light that makes a home glow.

Richline builds LED lighting for every corner of a modern home and the spaces around it — from wafer-thin ceiling panels and adjustable COB spots to outdoor floods, street lights and decorative rope. Whatever the room, the promise is the same.

THE RICHLINE PROMISE — IN EVERY FIXTURE

High lumen efficiency

More usable brightness from every watt you pay for.

Up to 80% energy saving

Big drop in running cost versus traditional bulbs.

2-year warranty

Backed across the entire product range.

Easy installation

Designed to fit fast, with minimal fuss.

THE RANGE AT A GLANCE

RECESSED SLIM PANEL

IRIS Slim Panel IRIS SERIES

Frameless flush light that disappears into the ceiling

An ultra-slim recessed panel that sits perfectly flush for a clean, modern ceiling. Spreads soft, even, glare-free light across living rooms, kitchens and offices.

- Wafer-thin profile fits shallow false ceilings
- 3-in-1 colour switch (warm / natural / cool) on select models
- Uniform glow with no visible hot spots

SURFACE PANEL

IRIS Surface Panel IRIS SERIES

All the panel light — none of the ceiling cutting

Mounts straight onto a solid ceiling, so it is perfect for concrete, rented homes and retrofits where recessing simply is not an option.

- No cutout needed — fixes to any flat ceiling
- 3-in-1 colour switch on select models
- Slim surface body with even, comfortable output
